FOUL WEATHER FRIENDS

Wonderful in fair weather, too. When the weather is foul, as it is so often in winter, an automatic washer and flameless electric dryer guarantee a constant supply of fresh-smelling, fluffy-dry clothes. With your own automatic electric laundry, you just pop the family wash in the washer, set the dial and go about your other chores. Drying clothes is no problem either—pop them in—set the dial—then do some other little chore for the family, you have been "putting off." So remember, in fair weather or foul, your best friends are an automatic washer and flameless electric dryer.

FAIRVIEW NEWS...

By Mrs. Elmer Joiner
I do not know why I did not choose to ignore the weather weeks ago, since last week I did decide to do just that until there was something to tell, and now we do have big news, around three inches of rain has fallen since Friday. Since this was the first rain in so long, every one has a smile, as the old saying goes, a mile wide. Things were

looking very gloomy for we do have those years every so often, that it hardly rains, and it was starting off just that way.

After three months and two weeks, our church has a pastor again. Rev. R. M. Babb accepted the call Sunday morning, so we feel like a little band of sheep that has found a shepherd again. We do hope that he, and his wife will be happy with us, even if we are small in numbers.

Mr. and Mrs. Fred Rosenbaum attended the Homecoming at Neinda, Sunday.

Mr. and Mrs. Joe Ford were mud bound, isn't that a good sounding word, Sunday morning, but got out Sunday night for church services.

Mr. and Mrs. Woodrow Goodwin, Mrs. Winslow Gray and Mrs. Elmer Joiner all attended the workers conference in Stamford, last Tuesday evening. The program was musical, with choirs and audience singing, making for a very interesting program.

Mr. and Mrs. Nolan Sullivan, of Lubbock, were Tuesday afternoon visitors of the Fred Rosenbaums.

Mrs. Doyle Gray, of Los Angeles, Calif., was a guest of the Winslow Grays, from Wednesday until Sunday. While there she was ill with the flu, which wasn't very good company when you are trying to visit.

The Friendship Home Demonstration Club met in my home, last Friday afternoon, since another meeting was scheduled at the Oil Mill guest house, and we always enjoy meeting in our homes anyway. Fourteen women were present to hear the guest speaker, Mrs. Donald Young, give the program, "Immoral influences on our youth", which was a very wonderful talk. Being, as she brought out, only a few years removed from a teenager herself, we all did enjoy hearing a young person's viewpoint.

Tuesday night visitors of the Fred Rosenbaums were Mr. and Mrs. Joe Ford.

Mrs. Woodrow Goodwin was home all day Sunday nursing a case of old time sick headache.

Was good indeed Sunday morning, to have the Jack Wright family in church services once again. They were visiting from Abilene.

Grandmothers will go to any lengths for their grandchildren, so Saturday afternoon

this grandmother made a trip to Abilene, in the pouring rain, to see the granddaughter in her bridal outfit, for the final fitting. Just couldn't wait until June 11th, when she will be married, and if I told you how she looked to me, everyone would just say that grandmothers are prejudiced, anyway. We have a right to our opinions and our minds are hard to change.

Started this news early this Monday morning, and since then it has rained another nice rain. Had seven tenths early this morning and several hard showers throughout the day, so far. Went to Anson this morning and the middle is all full of water between here and there, will be a wonderful season for the farmers to start a crop on.

Linda Goodwin will be one of the twirlers, in school, again next year, when she will be a senior.

The women's division of the Jones County Fair, met in Anson this morning to revise the rules and regulations of that department. The date set is August 24 and 25 and a good fair is being planned, for all departments, this year. The past two years there have been no women's exhibits, but a better place has been secured to have them and they will be one of the major attractions of the fair. So all ladies start working on something to take to the fair, it will be here before you know it. Clean out your closets and attics and show those antiques you find, do everything you can to make our county fair the best ever.

READY FOR New CARGO

This ship has been emptied of its cargo, and now stands ready to take on fuel and more cargo for further service. If this ship were to remain empty, it would be of no value and would be failing in the one thing that it was built for.

Man was created to be a companion to God, and when he does not join in worship with God, he is failing in the reason for his creation. Make your life mean something for God...

★ ATTEND CHURCH SUNDAY ★

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Governor Connally, pushing for tourism, pointed out that when air, train and bus visitors are added to the total, it shows that \$907,000,000 was spent by the visitors.

POWER for PROTECTION

The defense of our nation is inexorably tied to the pulsating power that flows through the lines of the rural electric cooperatives. Over the nation more than 1,000 of these member-owned systems furnish the power that allows electronic eyes to scan the skies. This same dependable power is ready to trigger a massive defense mechanism. In Texas, there are 79 of these locally owned, independent rural electric systems with lines that cover the remote stretches of our state. Midwest Electric Cooperative is a proud member of this fraternity of distinguished public servants, furnishing dependable power for our protection while Helping Texas Grow.

Neinda Philosopher Says N.Y. Stock Exchange Won't Find Any Low-Tax Place to Move To

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 explains some facts of life to a big outfit this week.

Dear editor:

According to a copy of the Wall Street Journal which a well-to-do friend of mine in town handed to me the other day to indicate the conversation was over, which I figured was a fair swap, the New York Stock Exchange has threatened to move out of

New York City because the new mayor wants to raise its taxes.

As a result, lots of other areas are bidding for the Exchange, but I wish to announce I have no place for it out here on this Johnson grass farm, and I'll tell you why.

It's not that I have any objections to the Exchange, as far as I know it's a fine outfit, but its members seem to know more about stocks than taxes.

I don't understand a bunch of men capable of handling millions of dollars worth of stocks every day not knowing that trying to flee from higher taxes in the 20th century is as hopeless as trying to make water stand uphill at an angle.

It's all right with me if the Exchange wants to move out of New York, but if it thinks it can leave any of its present or future taxes behind, it's headed for a crash.

that taxes can go where even paved roads don't?

You let the Exchange move out here and it wouldn't be two weeks before I'd get a letter saying my taxes ought to go up on account of me being benefited by the proximity of the thing. As for the Exchange itself, what makes it think one part of the country is any less tax-hungry than the rest? It would escape maybe for a short while, but they'd overtake it before long. Business is like an iceberg, only a small part of it is ever allowed to stay above the tax line.

Taken as a while, I guess the world is the tax-hungriest it has ever been in history and I would have figured the Stock Exchange would have known this.

You can't escape, gentlemen, even if you put it in a house trailer and keep moving it around. All you'd be doing is adding the gasoline tax to the rest.

Yours faithfully,
J. A.

Wonderful in fair weather, too. Drying clothes is no problem either—pop them in—set the dial—then do some other little chore for the family, you have been "putting off." FAIRVIEW NEWS...

By Mrs. Elmer Joiner
I do not know why I did not choose to ignore the weather weeks ago, since last week I did decide to do just that until there was something to tell, and now we do have big news, around three inches of rain has fallen since Friday. Since this was the first rain in so long, every one has a smile, as the old saying goes, a mile wide. Things were

looking very gloomy for we do have those years every so often, that it hardly rains, and it was starting off just that way.

After three months and two weeks, our church has a pastor again. Rev. R. M. Babb accepted the call Sunday morning, so we feel like a little band of sheep that has found a shepherd again. We do hope that he, and his wife will be happy with us, even if we are small in numbers.

Mr. and Mrs. Fred Rosenbaum attended the Homecoming at Neinda, Sunday.

Mr. and Mrs. Joe Ford were mud bound, isn't that a good sounding word, Sunday morning, but got out Sunday night for church services.

Mr. and Mrs. Woodrow Goodwin, Mrs. Winslow Gray and Mrs. Elmer Joiner all attended the workers conference in Stamford, last Tuesday evening. The program was musical, with choirs and audience singing, making for a very interesting program.

Mr. and Mrs. Nolan Sullivan, of Lubbock, were Tuesday afternoon visitors of the Fred Rosenbaums.

Mrs. Doyle Gray, of Los Angeles, Calif., was a guest of the Winslow Grays, from Wednesday until Sunday. While there she was ill with the flu, which wasn't very good company when you are trying to visit.

The Friendship Home Demonstration Club met in my home, last Friday afternoon, since another meeting was scheduled at the Oil Mill guest house, and we always enjoy meeting in our homes anyway. Fourteen women were present to hear the guest speaker, Mrs. Donald Young, give the program, "Immoral influences on our youth", which was a very wonderful talk. Being, as she brought out, only a few years removed from a teenager herself, we all did enjoy hearing a young person's viewpoint.

Tuesday night visitors of the Fred Rosenbaums were Mr. and Mrs. Joe Ford.

Mrs. Woodrow Goodwin was home all day Sunday nursing a case of old time sick headache.

Was good indeed Sunday morning, to have the Jack Wright family in church services once again. They were visiting from Abilene.

Grandmothers will go to any lengths for their grandchildren, so Saturday afternoon

this grandmother made a trip to Abilene, in the pouring rain, to see the granddaughter in her bridal outfit, for the final fitting. Just couldn't wait until June 11th, when she will be married, and if I told you how she looked to me, everyone would just say that grandmothers are prejudiced, anyway. We have a right to our opinions and our minds are hard to change.

Started this news early this Monday morning, and since then it has rained another nice rain. Had seven tenths early this morning and several hard showers throughout the day, so far. Went to Anson this morning and the middle is all full of water between here and there, will be a wonderful season for the farmers to start a crop on.

Linda Goodwin will be one of the twirlers, in school, again next year, when she will be a senior.

The women's division of the Jones County Fair, met in Anson this morning to revise the rules and regulations of that department. The date set is August 24 and 25 and a good fair is being planned, for all departments, this year. The past two years there have been no women's exhibits, but a better place has been secured to have them and they will be one of the major attractions of the fair. So all ladies start working on something to take to the fair, it will be here before you know it. Clean out your closets and attics and show those antiques you find, do everything you can to make our county fair the best ever.

This ship has been emptied of its cargo, and now stands ready to take on fuel and more cargo for further service. If this ship were to remain empty, it would be of no value and would be failing in the one thing that it was built for.

Man was created to be a companion to God, and when he does not join in worship with God, he is failing in the reason for his creation. Make your life mean something for God...

★ ATTEND CHURCH SUNDAY ★

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

PIPER PATTY...

By Patsy George

The Seniors have been given a list of the clothes which will be needed on the Senior Trip and told to carry only one suitcase. So if some groans are heard over town, think nothing of it—it is only the Seniors trying to close their bulging suitcases. They leave May 3.

HHS
Trying to make a few dollars at the last minute, the Seniors made and served pies for the gin supper Friday and Saturday nights. Each senior was required to make one pie and to work either Friday or Saturday night.

HHS
A breakfast was given at the First Baptist Church in honor of the graduating Senior Class. Almost all of the Seniors were present, even though they did have to get up a few minutes earlier.

HHS
Helen Moore and Margaret Johnson have been chosen to go to Bluebonnet Girls State. The girls will stay in Austin for ten days, where they will be joined by girls from other parts of Texas. There the girls learn about running our government. The girls will be divided into cities and will be allowed to run for offices in their government.

HHS
The new majorettes for the Pep Squad are: Sandra Fudge, Linda Goodwin, and Juanita Williams. Alternates are: Vickie Acklin and Jean Young. The final tryouts for cheerleaders have not been completed, so the excitement and anxiety are still in the air.

HHS
The Varsity basketball girls, their parents and their coach were feted Thursday night at Lavender's Cafeteria. Centerpieces used for the table were the trophies won by the girls.

Accompanying the group was Mrs. L. R. Fowler, the girls coach. Joyce Putnam, winner of the district girls' extemporaneous speech, and Mike Rountree, winner of second place in the district slide rule contest, were also in the Lubbock contests.

HHS
The girls regional track meet scheduled in Snyder Monday was postponed because the field was under water.

Land Commissioner Jerry Sadler has opposition from Fred Williams of Del Rio.

Only contested statewide judicial race is between incumbent Court of Criminal Appeals Judge W. T. McDonald of Bryan and District Judge John F. Onion of San Antonio.

Light voter interest is expected to be reflected in a predicted 50 per cent voter turnout.

Population — Texas is growing at the rate of 1.5 per cent a year, UT's Population Research Center reports.

An estimate of population shows that there were 10,336,141 Texans on April 1, 1965. This is a gain of 756,464 over the 1960 census.

Irrigated farming areas in the High Plains produced the two fastest growing counties — Randall and Deaf Smith. Respective growth rates are 7.7 and 7.1 per cent a year.

Harley County, in the top of the Panhandle, has gained 7 per cent a year.

But Texans still are moving to town. Study shows that the 21 metropolitan counties, which contain cities of 50,000 and more, gained 637,374 of the total. Only three of the 21 failed to gain. They are Midland, El Paso and Cameron Counties.

Pollution—Population growth essentially is to blame for growing problems of stream pollution. For example, the State water plan, soon to be

released, predicts that Fort Worth and Dallas will be discharging 750,000 acre feet of waste water a year into the Trinity River.

This prediction has the money from the Pollution Control Board looking for ways to require cities and industries to treat their wastes so they will not cause pollution. Board must adopt a plan for maintaining good quality water in all Texas streams by June 30, 1967, or Federal agencies will take over the job.

Coordinating Board, Texas College and University System, has appropriated \$25,000 to be used, with matching money from the Pollution Control Board, to devise a work plan for a \$4,000,000 study of how to keep the Galveston Bay System clean.

Colleges — Population growth produces more college students. Coordinating Board forecasts that enrollments in 17 state colleges and universities will double by 1978 — from 115,015 to 260,097.

This determination was made for the purpose of split-

ting up the \$156,000,000 Texans will pay in the next 12 years on the 10-cent per \$100 ad valorem tax to finance college buildings at the 17 schools. Schools in the University of Texas and Texas A & M Systems get their building money from their permanent fund endowment.

A \$20,000,000 bond issue to finance the first two years of student loans under an overall \$85,000,000 state program was approved by the Board.

Tourists — Texans Highway Department reports that 12,688,000 tourists visiting Texas by car in 1965 spent \$613,148,000 — 16.4 per cent more than 1964.

Governor Connally, pushing for tourism, pointed out that when air, train and bus visitors are added to the total, it shows that \$907,000,000 was spent by the visitors.

He also emphasized the need for more recreational facilities at major reservoirs during the dedication of Canyon Dam on the Guadalupe River.

Ponce de Leon, discoverer of Florida, was a veteran of one Columbus voyage.

Austin — With 840,000 acres of right of way to care for, the Texas Highway Department needs all the help it can get.

POWER for PROTECTION

The defense of our nation is inexorably tied to the pulsating power that flows through the lines of the rural electric cooperatives. Over the nation more than 1,000 of these member-owned systems furnish the power that allows electronic eyes to scan the skies. This same dependable power is ready to trigger a massive defense mechanism. In Texas, there are 79 of these locally owned, independent rural electric systems with lines that cover the remote stretches of our state. Midwest Electric Cooperative is a proud member of this fraternity of distinguished public servants, furnishing dependable power for our protection while Helping Texas Grow.

Neinda Philosopher Says N.Y. Stock Exchange Won't Find Any Low-Tax Place to Move To

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 explains some facts of life to a big outfit this week.

Dear editor:

According to a copy of the Wall Street Journal which a well-to-do friend of mine in town handed to me the other day to indicate the conversation was over, which I figured was a fair swap, the New York Stock Exchange has threatened to move out of

New York City because the new mayor wants to raise its taxes.

As a result, lots of other areas are bidding for the Exchange, but I wish to announce I have no place for it out here on this Johnson grass farm, and I'll tell you why.

It's not that I have any objections to the Exchange, as far as I know it's a fine outfit, but its members seem to know more about stocks than taxes.

I don't understand a bunch of men capable of handling millions of dollars worth of stocks every day not knowing that trying to flee from higher taxes in the 20th century is as hopeless as trying to make water stand uphill at an angle.

It's all right with me if the Exchange wants to move out of New York, but if it thinks it can leave any of its present or future taxes behind, it's headed for a crash.

that taxes can go where even paved roads don't?

You let the Exchange move out here and it wouldn't be two weeks before I'd get a letter saying my taxes ought to go up on account of me being benefited by the proximity of the thing. As for the Exchange itself, what makes it think one part of the country is any less tax-hungry than the rest? It would escape maybe for a short while, but they'd overtake it before long. Business is like an iceberg, only a small part of it is ever allowed to stay above the tax line.

Taken as a while, I guess the world is the tax-hungriest it has ever been in history and I would have figured the Stock Exchange would have known this.

You can't escape, gentlemen, even if you put it in a house trailer and keep moving it around. All you'd be doing is adding the gasoline tax to the rest.

Yours faithfully,
J. A.

IT IS REALLY MARK SMITH — The occasion for Mark Smith's comical dress is the annual Derby Day "Dec-a-Sig" contest held Apr. 16 by Sigma Chi Fraternity at the University of Texas, of which Mark is a member. One of the sorority girls, right, decorated him. He represents "Duckman," complete with cape, flippers, bill and utility belt. Mark won a first and third place in two categories.
